EXAMINER'S AMENDMENT

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 7/19/2007, Amy DeCloux requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 04-1105 the required fee for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claim 37. (Currently amended) A method of diagnosing mild osteoarthritis in a human test individual, said method comprising:

for each gene of the set of genes consisting of TNFAIP6 and TGFBI,

(a) determining the level of expression of RNA encoded by said gene in a cartilage sample of said individual; and

(b) comparing said level with the level of expression of RNA encoded by said gene in control cartilage samples, wherein said control samples are from individuals who have been diagnosed as not having osteoarthritis;

whereby ~~a difference between an increase in~~ said level of step (a) and relative to said level of expression of said RNA in said control samples is indicative of mild osteoarthritis.

Claim 38. (Canceled)

Art Unit: 1636

The title has been changed to the following:

Diagnosis of mild osteoarthritis by determination of TNFAIP6 and TGFBI RNA levels

This application is in condition for allowance except for the following formal matters:

The drawings contain tables. The tables are labeled Figures 1, 2, 3, 4, 5, 6a, 6b, 6c, 6d, 7a, and 7b. 37 C.F.R. § 1.83(a) states, "tables and sequence listings that are included in the specification are, except for applications filed under 35 U.S.C. 371, not permitted to be included in the drawings." The instant application was not filed under 35 U.S.C. 371 and thus is not permitted to have tables in the drawings. It would be remedial to amend the specification include the information contained within the drawings as tables within the specification and to amend the specification to refer to the tables rather than the figures.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
